Forward-Looking Statements

This presentation contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 and Section 27A of the Securities Act. These statements, which represent the Company’s expectations or beliefs concerning various future events, include statements concerning future revenues, projections, targets, synergies, strategy, earnings, and liquidity associated with continued growth in various market segments, cost reductions expected from various initiatives, our acquisitions and other events. These forward-looking statements are subject to risks and uncertainties that could cause actual results to differ from those projected, anticipated or implied. Any of these risks could have adverse and/or fluctuating effects on the Company’s results of operations. For additional information about factors that could cause actual results to differ materially from those described in the forward-looking statements, please see the Company’s SEC filings including its annual report on Form 10-K for the year ended June 30, 2012, Forms 10-Q for the quarters ended September 30, 2012, December 31, 2012, and March 31, 2013 and the exhibits attached to those filings. All subsequent forward-looking statements attributable to the Company or any person acting on its behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. The Company is not under any obligation to, and expressly disclaims any obligation to, update or alter any forward-looking statements whether as a result of such changes, new information, subsequent events or otherwise.

Non-GAAP Financial Measures

Some of the information included in this presentation is derived from Carpenter’s consolidated financial information but is not presented in Carpenter’s financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP). Certain of these data are considered “non-GAAP financial measures” under SEC rules. These non-GAAP financial measures supplement our GAAP disclosures and should not be considered an alternative to the GAAP measure. Q4 Business Highlights

- Manufacturing gross margin expansion from operational execution
 - Better melt yields
 - Improved scrap management
 - Enhanced focus on manufacturing costs and OH
- Better mix management within manufacturing
- Additional cost reductions from integration efforts

Q1-14 Outlook

- Latrobe Manufacturing to be reported in SAO Segment for FY14, while Latrobe Distribution to be reported in PEP Segment in FY14

Manufacturing fully integrated into SAO, with earnings and synergies above plan

SAO Segment Summary

SAO Segment Q4-13 Results and Q1-14 Outlook

Q4 Business Highlights

- Solid operational execution
 - Sequential margin expansion
 - Continued focus on reducing costs per ton
 - Decline in higher-value material sold to transportation and industrial markets
- Growth in Aerospace structural and engine applications
- Market penetration in Oil and Gas completions
- Deferrals down versus Q3

Q1-14 Outlook

- Order inquiry activity and backlog improving
- Seasonal volume decline
- Planned 3 to 4 week major preventative maintenance outage
- Expect continuing supply chain adjustments
- Economically sensitive markets still challenging

Aerospace demand remains solid, while other economically-sensitive markets remained challenged

Q4 Business Highlights

- Sales up 7% sequentially but down 11% y-o-y
 - Strong demand for ti aero fastener material
 - Tool steel and distribution remained soft
- Margins negatively impact by
 - Facility start-up costs and new product launches
 - Lower production rates and a weaker mix

Q1-14 Outlook

- Accelerating operational improvement plans
- Solid Aerospace titanium fastener demand
- Powder sales expected to remain weak
- Equipment sold into the Oil & Gas market to remain under pressure due to lower capex by service companies

Action taken to improve operating performance of PEP

Growth Enablers

Driving Innovation & Responding to Increased Customer Demand

Athens Facility

- On time and under budget
- Data Center and Met/Chem Laboratory both on-line for start of qualifications
- Radial press foundation completed on-time and equipment being installed
- First four VAR furnaces being installed
- FY14 fixed OH of approximately \$9.5M versus \$5.5M in FY13, excluding depreciation
- Budgeted start-up costs of \$8 – 10M in FY14

Forge Finishing Capacity

- \$24M forge finishing expansion in Reading operational for full quarter
- Overall 30% increase in finishing capacity for straightening, cutting, polishing and ultra sonic testing of large diameter bars
- Supports continued growth in demand for Aerospace and Energy markets

Closing Comments

Q4 and FY13 Highlights

- Solid execution in a challenging environment
 - Sales, ex. surcharge, up 5% from Q3
 - Operating income, ex. pension EID, up 20% from Q3
- Focused strategy resulted in increased sales to the Aerospace and Energy markets.
- Actions taken to improve cost structure
 - Reduced salaried headcount
 - Focused on reducing fixed cost OH
- Enhanced liquidity
 - Drove positive Q4 FCF
 - Increased revolving credit facility
- Solid FY13 muted by change in second half market conditions, however:
 - Latrobe above deal economics
 - Delivered record EBITDA
 - Record levels of premium forged materials

Q1 and FY14 Outlook

- Normal seasonal Q1 operating income and EPS decline from Q4 – similar to last year
- Potential further impact:
 - Planned maintenance outage
 - Challenging market environment / limited visibility
- Underlying dynamics to drive growth
 - Strong fundamentals in key markets
 - Solid position with key customers
 - Lower cost structure
 - Growth investments to begin contributing
 - Recent order inquiry activity is encouraging

(A)

Management believes that removing the impacts of raw material surcharges from operating margin provides a more consistent basis for comparing results of operations from period to period. Management believes that excluding the impact of pension earnings, interest and deferrals, which may be volatile due to changes in the financial markets, is helpful in analyzing the true operating performance of the Company.

Management believes that removing the impacts of costs associated with the special items (i.) restructuring related costs, (ii.) an inventory reduction initiative costs aimed at identifying opportunities to reduce inventory levels and improve inventory turnover across the mill operations (iii.) Latrobe acquisition related costs (from transaction) (vi.) Latrobe acquisition inventory fair value cost adjustments are helpful in analyzing the operating performance of the Company, as these costs are expected to be nonrecurring in nature and may result in significant fluctuations in operating results from period to period.

(A) For purposes of providing earnings and guidance for fiscal year 2013, the Company excluded \$11.6 of Latrobe acquisition inventory fair value adjustments from adjusted operating income for fiscal year 2012.
